ADVANCED DRIVER TRAINING

***For All School Districts Participating In The
Public School Vehicle Insurance Trust Fund***

The Risk Management Division offers a free Smith-System Advanced Driver Training Program for your district's approved drivers. Employees completing this approved course are eligible for a reduction in premium for personally owned vehicles according to Ark. code Ann. 27-19-608.

Personal and job related vehicle collisions disrupt schedules and rob you and your employees of valuable work time. Injuries, deductibles, vehicle repair or replacement and administrative processing combine to drain productivity. It is in everyone's interest to do what can reasonably be done to reduce the frequency of vehicle collisions. Behind-the-wheel training is the foundation behind this program which focuses on the core driving fundamentals of space management, visibility and time.

For a closer look, visit www.smith-system.com and call the Risk Management Division at (501) 371-2690 about a flexible course schedule for your district's approved drivers. This program is presented at your location.
